Subject: Re: Pesticides Rationale draft for your review

Forgot to comment on your last para. in the email...given our past "lively" discussions on ODF's notification process, I'm not sure that's a non-controversial subject. I look forward to reviewing what you suggest to add but we need to be very careful about not crossing over the implementation/enforcement line. However, before we work on this language which could be controversial, I recommend we make sure the rest of the rationale is really strong first.

Hi Everyone - I updated the rationale based on what we talked about proposing to the managers. We brief them Monday morning at 10AM. This is pretty close to what we had in the rationale that you had all reviewed before. Please send me any comments by next Tuesday, September 30. Gabriela and Linda, if you could check the pesticides piece again, that would be great.

I'm likely going to add some more info explaining how the ODF notification process works, their education and outreach, and PARC, but hopefully, that's not controversial and wouldn't need much team review except for editing for clarity.

Thanks, Everyone - Jenny
